PROFESSIONAL SUMMARY

AI Content Creator, AI Filmmaker, and AI Prompt Engineer specializing in generative AI image and video creation, prompt engineering, and industrial visual content. Experienced in developing AI-generated visuals for creative and industrial projects, including 2D and 3D visual content. Skilled in prompt optimization for lighting, composition, camera movement, and motion consistency.

SKILLS

Generative AI: AI Image Generation, AI Video Generation, Generative AI Workflows, Visual Content Creation

Prompt Engineering: Prompt Design, Prompt Optimization, Iterative Prompting, Visual Direction, Output Refinement

Visual Production: Industrial Visualization, Machinery and Equipment Visualization, 2D Visual Content, 3D Visual Content, Lighting, Composition, Camera Movement, Motion Consistency

AI Tools: OpenArt , ChatGPT, Kling AI , Gemini , Veo , Wan Ai , ElevenLabs ,Polla Ai

Programming and Data Science: Python, Java, SQL

Tools: Microsoft Excel, PowerPoint, Google Slides

Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

Digifox Studio | May 2026 – Present

Specialization: Generative AI, Prompt Engineering, AI Image and Video Creation

- Created AI-generated images and videos for creative and industrial visualization projects.
- Worked on one 2D and three 3D visual content projects using generative AI technologies.
- Designed and refined prompts for industrial manufacturing environments, machinery, and equipment visualization.
- Produced AI-generated industrial videos using ChatGPT, Kling AI and Gemini.
- Optimized prompts to improve visual quality, lighting, composition, camera movement, and motion consistency.
- Revised AI-generated assets based on project requirements and feedback.

PROJECTS

1. AI-Based Behavioural Safety Awareness Video

Tools: ChatGPT Pro, Kling AI, Prompt Engineering, AI Image Generation, Image-to-Video Generation

- Created AI-generated visual content focused on behavioural safety awareness.
- Designed prompts to generate relevant safety images and converted selected images into videos using AI tools.
- Refined prompts to improve visual clarity, scene composition, and motion consistency.

2. AI-Based Industrial Safety Video

Tools: ChatGPT Pro, Kling AI, Generative AI, Prompt Engineering

- Developed AI-generated visual content demonstrating industrial safety practices and workplace hazards.
- Generated images from text prompts and transformed them into videos using AI-based tools.
- Optimized prompts to improve industrial environments, visual details, and scene continuity.

3. AI-Based Visitor Safety Awareness Video

Tools: ChatGPT Pro, Kling AI, AI Image Generation, Image-to-Video Generation

- Created AI-assisted visual content highlighting visitor safety procedures and precautions in industrial environments.
- Used prompt engineering to generate relevant images and convert them into video sequences.
- Refined generated visuals based on the intended safety message and project requirements.

4. AI-Based Chemical Safety Awareness Video

Tools: ChatGPT Pro, Kling AI, Generative AI, Prompt Engineering

- Developed AI-generated visuals illustrating chemical safety awareness and safe handling practices.
- Generated images through detailed prompts and converted the images into videos using AI tools.
- Improved visual composition and scene presentation through iterative prompt refinement.

5. AI-Based Cybersecurity Awareness Video

Tools: ChatGPT Pro, Kling AI, AI Image Generation, Image-to-Video Generation

- Created AI-generated visual content focused on cybersecurity awareness.
- Designed prompts to represent digital security concepts and transformed generated images into video content.
- Refined visual storytelling, composition, and motion to support the intended awareness message.

6. AI-Generated 2D Visual Content Project

Tools: ChatGPT Pro, Generative AI Tools, Prompt Engineering, AI Image-to-Video

- Created 2D visual content using AI-powered image generation techniques.

- Converted AI-generated images into video sequences using image-to-video tools.
- Optimized prompts to improve visual style, composition, and consistency across scenes.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science and Engineering
C.K. College of Engineering and Technology, Cuddalore, India
July 2021 – June 2025

CGPA: 7.99

Higher Secondary - Government Girls Higher Secondary School
July 2018 – May 2021
HLC/12th: 85% | SSLC/10th: 84%

INTERNSHIPS

- Netzwerk Academy: 6-month internship in Data Science.
- Cavin InfoTech: 1-month internship in Unity Development.
- Syscorp Technologies: 14-day internship in Website Development.
- Fintech Point: 1-month internship in Front-end Development.

SOFT SKILLS

- Problem Solving
- Adaptability
- Time Management
